

Ödevata Fiskecamp

You'll find the Ödevata Fishing Camp in Småland Province offering lodgings and activities for small and large groups in the midst of wondrous lakes and enchanted forests. The inveterate fishing enthusiast can pick and choose from among many types of waters, ranging from shallow clear-water lakes to magical forest tarns. In five of the lakes you can hire boats and book a fishing guide. It is to this, the southernmost virgin wilderness in Sweden that Malin and Magnus extends a warm welcome.

Season

The fishing-season lasts the whole year. Spring fishing for pike begins in April-May. From June through August summer fishing pike, pikeperch and perch are the goal. September through November offers more of the same, while winter fishing in January, February and March focuses on pike and perch.

Species & Records

The primary species in our lakes are: Pike – record in the deepest lake is 13 kg (2012). Perch – 1.1 kg (2012) and 0.9 kg (2009) in the closest lake. Pikeperch – 7.5 kg 2010 in the largest lake. Tench – 1.8 kg and Crucian carp: 0.9 kg in the closest lake.

Fishing Service

You can rent boats at Ödevata FiskeCamp, Linder 440s with environmentally friendly electric motors. There is also a small tackle shop with equipment suited for the local lakes. You can also rent fishing equipment and life jackets. A fishing guide can be booked. Most fishing sites are accessible from the shore and docks in the camp. Magnus, your fishing host, was born here and as he grew up among the area lakes, he knows them in and out.

Location & Transfer

Ödevata is located in southern Sweden between Växjö, Kalmar and Karlskrona. By car it is 10 min from the Emmaboda railway station, one hour from Karlskrona, 45 min from the Kalmar Airport, one hour from the Växjö Airport, three hours from Malmö, five from Stockholm and four from Göteborg.

Equipment & tactics

There are more than 100 lakes in the Emmaboda municipality. We sell fishing licences for eight of them and have boats in five. The primary lake fishing is for pike, perch, bream and tench, but we also have excellent pikeperch and rainbow waters. Starting at the camp, the lakes are located within a 20 km radius. For pike and perch the equipment range is broad, including jerk, spin, coarse fishing and trolling. You can also fly-fish for pike!

Regulations

Pikeperch – minimum length 45 cm, one/day/angler; Pike – min/max 40-70 cm, one/day/angler. We recommend C&R as the natural way to fish, done with respect for the fish. No fish are allowed to be taken away from the camp and brought home.

Other activities

Ödevata's nature and setting, grill sites, beaches, hiking trails, paddling, cycling, picking mushrooms and berries, sauna and guided nature experiences. We are close to the Kingdom of Crystal, Kalmar Castle, Öland Island with all it has to offer, as well as the National Naval Museum in Karlskrona.

Languages

We speak Swedish and English at Ödevata FiskeCamp.

Additional info

The Ödevata FiskeCamp is a small, personal fishing and holiday paradise hosted by Malin and Magnus. As your hosts we do our best to ensure that you will have a glorious time here in our superb area, while never forgetting the environment or the need for sustainable management.

Accommodation

We can offer various lodging alternatives, such as your own house with self-catering or a room in our B&B in the main complex building. For larger groups of up to 30 persons renting the whole 15-bedroom building is an alternative. We're open to arranging full board, other activities and excursions for groups and have generous parking facilities. We offer four different self-catering cottages on our premises and they are all fully equipped for self-catering with running water, WC/shower and TV offering Swedish, English and German channels. They also have barbecue and outdoor furniture. Ödevata 1 & 2 are located some 60-100 meters from the lake and both can accommodate 6 persons. Ödevata 4, Sjöstugan, with its small guesthouse can host 5 persons and is located just by the lakeshore. Ödevata 3, Alsjömla, is a 120 m², 8 bed guesthouse located in a beautiful setting some 600 m from the lake and camp.
